PROFESSIONAL SUMMARY

Data Analyst with a B.Tech in Computer Science & Engineering (Data Science) and hands-on experience across Data Science, Business Analytics, and CRM Analytics internships. Skilled in SQL, Python, PostgreSQL, Excel, Data Visualization, Exploratory Data Analysis (EDA), and Predictive Modeling. Proven ability to analyze large datasets, automate data workflows, build forecasting models, and transform complex data into actionable business insights. Experienced in data cleaning, statistical analysis, dashboard reporting, and stakeholder communication. Passionate about leveraging data-driven decision-making to solve business problems and drive organizational growth while continuously enhancing analytical and business intelligence capabilities.

EDUCATION

Government Engineering College, Sheohar

B.Tech – Computer Science & Engineering (Data Science) | CGPA: 8.19/10

Sheohar, Bihar

Nov 2022 – May 2026

EXPERIENCE

The Sparks Foundation – GRIP Program

Remote

Data Science & Business Analytics Intern

Nov 2025 – Dec 2025

- Performed end-to-end analysis on 10,000+ record datasets – data ingestion, cleaning, EDA, and feature engineering using Python (Pandas, NumPy) – uncovering business-relevant trends and actionable patterns.
- Built Scikit-learn predictive models achieving ~85% accuracy in sales forecasting; automated preprocessing pipelines cutting analysis runtime by ~50% via vectorized operations.
- Designed Matplotlib dashboards and analytical reports to communicate findings effectively to non-technical stakeholders.

Cisco Virtual Internship Program

Remote

Data Science Intern

Sep 2024 – Oct 2024

- Analyzed large-scale enterprise network datasets to identify performance patterns and support IT operations decisions; automated Python-based reporting workflows, reducing manual effort by ~40%.
- Built REST API integration prototypes to streamline inter-service data exchange by ~25%; authored technical documentation covering data pipelines, API design, and analytical outcomes.

Salesforce Virtual Internship Program

Remote

CRM & Data Analyst Intern

Dec 2023 – Jan 2024

- Executed SQL-based data migration pipelines with multi-layer validation, achieving 98% data integrity post-migration; identified and resolved inconsistencies across relational database tables.
- Automated Salesforce CRM workflows using Python scripts, reducing repetitive data-entry tasks by ~35%; documented analytical processes for internal knowledge management.

PROJECTS

Clash-Free Timetable Management System | *Python, Django, Django REST Framework, PostgreSQL* | [Live Demo](#) 2026

- Designed a normalized PostgreSQL schema for faculty, classroom, and subject scheduling with integrity constraints ensuring zero conflicts; built RESTful CRUD APIs and automated timetable generation, eliminating 100% of manual scheduling overhead.

Anuttaram 3.0 – Event Management Platform | *Python, HTML, CSS, JavaScript, Git* | [Live Demo](#) 2025

- Developed and deployed a responsive web platform for a college technical festival with structured event/participant data presentation and a mobile-optimized UI, improving accessibility and information visibility significantly.

ACHIEVEMENTS & CERTIFICATIONS

- **NPTEL (IIT)** – Problem Solving Through Programming in C | Certified algorithmic thinking and programming fundamentals.
- **IIT Bombay (Spoken Tutorial)** – Python Programming & Data Science & Business Analytics | Industry-recognized IIT-endorsed curriculum.
- **Salesforce Developer Virtual Internship** – SQL data migration, CRM data management, and workflow automation on live enterprise systems.
- **Cisco Data Science Virtual Internship** – Network data analysis, REST API integration, and enterprise-scale Python automation.

TECHNICAL SKILLS

Languages: Python, SQL, C, HTML/CSS

Data Analysis & ML: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, EDA, Statistical Analysis, Feature Engineering, Predictive Modeling, Regression, Classification

Databases: PostgreSQL, MySQL, SQLite

BI & Visualization: Power BI, Excel (Pivot Tables, Power Query, VLOOKUP/XLOOKUP), Dashboard Development, KPI Reporting, Data Storytelling

Tools & Frameworks: Django, Django REST Framework, Git, GitHub, Postman, VS Code, Salesforce CRM

Core Competencies: Business Intelligence, ETL Automation, Data Cleaning & Transformation, Root-Cause Analysis, Reporting Automation, Stakeholder Communication
